18th September 2026

Dear Parent/Carer,

Year 11 Intervention and Exam Preparation Programme

As we begin this important stage of Year 11, we wanted to share with you the additional support that we are putting in place to help students prepare for their examinations and manage their workload effectively.

Our aim is to provide students with structured, targeted support throughout the year, rather than allowing additional work and revision to build up as the final examinations approach. Where possible, we are also aiming for students to **complete their coursework and other non-examination assessment by January 2027**. This will allow them to focus more fully on revision and examination preparation later in the year and help to minimise pressure during the final examination period.

After-School Intervention

We will be running a programme of after-school intervention sessions across the week from 3:15-4:15pm:

Day	Subjects/Foci
Monday	Art, Business, Computer Science, Sport, Sociology and Drama
Tuesday	Exam Fitness
Wednesday	Selected students who are not meeting their target grade will be invited to attend additional English and/or Maths intervention. Parents/carers will be informed where their child is expected to attend these sessions.
Thursday	Business, Food, MFL, Media and Health & Social Care
Friday	Geography, History and Textiles

Students will be directed to intervention sessions based on their individual needs and the areas in which additional support will have the greatest impact. These sessions will take place with subject specialist to maximise student progress.

Exam Fitness

On Tuesdays, students will take part in our Exam Fitness programme. These sessions are designed to help students develop the knowledge, skills and habits they need to approach their examinations confidently and successfully.

The planned programme is:

September 2026	October 2026	November 2026	December 2026
22.09.26 – GCSE Maths 29.09.26 – GCSE English	06.10.26 – GCSE Science 13.10.26 – GCSE Maths **27.10.26 – Exam Week**	03.11.26 – GCSE RE 10.11.26 – GCSE Maths	01.12.26 – GCSE Science

As part of this programme, students will complete important, assessed work under appropriate conditions. This will give both students and teachers a clearer picture of current performance, identify gaps in knowledge and allow subsequent teaching and intervention to be targeted more effectively.

We recognise that Year 11 can be a demanding year for students. The purpose of this programme is not simply to give students more work, but to spread preparation across the year, provide support at the right time and reduce the pressure students experience as the final examinations approach.

Students' attendance to the intervention sessions is compulsory. We would therefore appreciate your support in encouraging your child to attend, engage fully with the sessions and make the most of the additional help available. Students who fail to attend interventions will receive a 1 hour detention the following day.

We would also encourage students to make full use of the Year 11 revision folder, which contains consolidated notes, past papers and additional revision resources for every subject. This can be accessed via the link Year 11 Revision Resources or by scanning the QR code provided.

Thank you, as always, for your continued support. By working together, we can ensure that students are well prepared and supported throughout Year 11.

Yours sincerely,

Mr Campbell
Head of Year 11

Mr Fernando
Deputy Head Teacher
